

## **“COUNTER AND CONQUER” With Graham Ramsey**

**March 14-15 at Hobart & William Smith Colleges,**

For one goal to stand out above all others and be remembered a generation later is a testament to Terry McDermott's/Liverpool goal over 20 years ago at Anfield. This came from a classic counter attack that started in the Reds' goal area and 10 seconds later that ball rested in their opponent's net. Certainly a goal to treasure.

This Workshop will look at different ideas in coaching your team in the arts of “fast break soccer” and maybe this Workshop can unlock your team's energy to create such a great goal.

The Workshop will cover the individual and the team-work necessary to create such goals. Handouts will be given out and DVD examples will be shown.
